CEGANIZATION OF THE INVALID CORPS.

Ar. Howard (Un., Mich.) introduced a bill to organize the Invalid Corps of the army, which was referred to the Committee on Military Affairs.

The bill provides that the Invalid Corps shall be organized on an infantry basis; that the officers shall be appointed by the President only for meritorious service, and being disabled for active service, with the same pay as infantry officers of the same grade; that the corps shall consist of four brigades, of six regiments each; that the men in the military service who are shown on examination to be unfit for active duty, but capable of garrison, whose character and military history will entitle them to such recognition, may be transferred to this corps, and that soldiers honorably discharged after two years of service, and who are unfit for active duty, may callst in it. For drunkenness or other misdemeanor may callst in it. For drunkenness or other misdemeanor the invalid soldier is to be punished by the deprivation

so industriously cultivated as a political element. The only complaint we have heard is that of a negro clothed with a brief authority as a surgeon, who, presuming to thrust himself in a car with whites, was thrust out. We have received no petition from a single resident here praying the passage of such an amendment as this. Let it be known to the country, even to Massachusetts, whose ideas seem to be controlling the legislation of the country, and who seem to be running the machine alone. Let it go out that this legislation is proposed in the American Senate on the plea of a letter written by a negro. The men who are persistently attempting to urge these measures are not the true friends of the colored race. Fifty years will not expire before history will record this fact. Look at the fate of the poor Indian. When he looked at the African in his groveling condition, he accepted it as a decree of Prov.

Mr. (ILAE (Un, N. H.) offered the following resolution:

That the Committee on Neval Affairs be instructed to inquire if the same promotions in the Volunteer Navy, sindier of analogous to the Regular Navy, may not be established by how to act to even demonitories conduct in that class of efficient.

The resolution was agreed to.

DISPOSITION OF CEMINALS AND SUBSITING THE SAME.

Mr. POSTER (Un, Com.) introduced a bill concerning the disposition of convicts in the Courts of the United States, and lolarged with violating the laws of United States, and for diminishing the expenses in relation thereto.

The bill was referred to the Committee on the Jadiciary.

This bill is designed to authorize the transportation of convicts of the United States Courts to persons designated by the Secretary of the Interior, and to contract for their labor, as in the prisons of the States, unit suitable prisons shall be provided and the prisoners in the custody of the cultred States Marshals. It repeals the act of Pebruary 29, entitled "An act to authorize the appointment of a Warden of a Jail in the District of Columbia."

Mr. Cox (Dem., Ohio) moved a cail of the House but this was disagreed to.

The bill as amended by the Senate, with the amendation of the same part of the United States, and location of the States, and classes of the United States of the United States (Mr.) Dawes, haven, Dennelly, Clark, Cox, Lovis, Myers, L. Myers, Noten, Odell, O Nell (Penn.), Orth, Patrick for their labor, as in the prisons of the States, units suitable prisons shall be provided and the orisoners distributed in the country. The actual reasonable expenses for the subsistence of prisoners in the outstody of the United States Marshals. It repeals the act of Pebruary 29, entitled "An act to authorize the appointment of a Warden of a Jail in the District of Columbia."

Mr. HOWARD (Un., Mich.) introduced a bill to organize the lavalid Corps of the army, which was referred to the Committee on Military Affairs.

The bill, provides that the Invalid Corps

Feb. 25, 1862, shall not be impaired thereby.

UNEMPLOYED GENERAL OFFICERS.

The Honse resumed the consideration of the bill to drop from the rolls any unemployed general officers.

Mr. Cox of Ohio offered a provise that whenever any officer comprehended in this act demands a Board of Inquiry, and who shall be willing to serve, that such Beard shall be convened, and if said Board shall find him constant to command in the rank in which he is entitled. few years of service, and who are unift for active duty, may called in it. For drainteness or other mischemeanor of the pension due him, or to become due.

Mr. Wilsox (Lin, Mass.), introduced a Bill in relation to deserters from the military service of the United States, which was referred to the Committee of t the respective merits of these oncess. Perhaps that has be done by others. As to Metlellan, I know that he would prefer to be ruled out of service than to continue as he is. He left employment at \$10,000 a year, and all he has made in his civil employment he has lost. Is it just to thrust him thus from his pay? Why not give him employment equal to his signal abilities. Is it because of the falschoods every day represented about him? It might be well here to notice the scandal circulated just before the New-Hampakire election, as to the interview between Lee and McClellan, I do it because the likel has a large currency, and deserves the same extended denial McClellan has never seen Lee since 1855. The only communications he ever had from him during the War were upon such matters as wounded prisoners, etc., and

dictellan. I do it because the libel has a large written by a negro. The men who are persistently attempting to urge these measures are not the true friends of the colored race. Fifty years will not expire the colored race. Fifty years will not expire the poor Indian. When he locked at the African in his groveling condition, he accepted it as a decree of Providence that the white man was so far above him in all the attributes of civilization, political power, and occial he attributes of civilization, political power, and occial he attributes of the world—one without a parallel history. We are and have been for the last three years trying to debase correlves and raise the negro. If he massive columns of this edifies shall ever tumble to be considered to the colored to the colo

AN ENLARGEMENT AND IMPROVEMENT.—The AN ENLARGEMENT AND IMPROVEMENT.—The extraordinary success which has attended the enterprise of Mr. J. T. ELLIS in opening a central emporium for the sale of Weinelan & Wilson's eclebrated Swims-Madmins, at No. 838 Broadway, corner of 22d et., has already compelled the proprietor to extend his facilities for meeting the requirements of the public. He has accordingly secured the adjoining premiers, at No. 937 Broadway, and the spacehous apartments of both buildings are now at his command. This will enable him to keep on hand a larger stock of machines, for sale and to rent, and to meet the heavy demands made upon him by families for the services of operators, a large number of whom Mr. ELLIS keeps steadily at work in manufacturing contributions for the great Metropolitan Samitary Fair. It is highly creditable to Messre, Wherlen & Wilson, of whose establishment Mr. ELLIS is a graduate, that they have so liberally extended to him the facilities to establish a successful and profitable business for himself, and at the same time so greatly accommodate the public by the opening of an emporium so convenient of access to all families in want of Sewino-Machines. Mr. ELLIS gives strict personal attention to his business. Is very kind and obliging to persons of limited means, and his enterprise commends itself highly to every citizen, who in patronizing him, and realizing every advantage that they could elsewhere obtain, at the same time aid in extending advantages to people of moderate means.—[Sanday Mercury.

The Second-avenue Railroad was unfortunately built in anticipation of the public wants. When the tracks were half the population on that side of the city was extremely limited above Twenty-third street, and even how, between Fifty-fifth street and Harlem, there is but little paying business. The Railroad has been worked at the expense of the stockholders, for the benefit of the city and the community, the advantage to the city being the increased taxable value of real estate, and dith of the citizens, the accommendations afforded by the regular running of the cars. It appears that on the day of the might charged a man had been locked up for steeling water that the second cabin and steerage passengers had gone forward to demand his release from the Captain, and that at night the Doctor of the vessel came below and told the passengers they were to have "a bit of shooting," that some ten minutes afterward the mates and some sailers came down with light, and just afterward two shots were fired, and the deceased fell. There was considerable of a row on deck and below, string from the refusal of the Captain to release the water thief, one Reilly, who was a stow away on board. The accused, who was first mate, together with the 1d and 3d mates, with 5 semmen, were ordered below to arrest the ringleaders, and in the nuclee one of the passengers was shot, but, so far as the examination has progressed, one evidence has been elicited from the accused as the person who fired the fatal shot.

I am the recipient from you of one of the greatest favors the can be conferred upon man, viz., that of health. For many years have I suffered from one of the most anneying and do bilitating complaints that the human family can be afflicted with, Chronic Diarrhea.

During the long time I was suffering from this disease, I was attended by regular physicians, giving me but temporary re-lief. The cause seemed to remain until I was induced to try Hoofland's German Bitters. After the use of a few bottles of

that valuable medicine, the complaint appeared to be completely eradicated. I often inwardly thank you for such a valuable specific, and whenever I have an opportunity, cheerfully recommend it with full confidence in its reliability.

Truly yours. NEW-YORK, Feo. 2, 1864. From Julius Lee, Esq., firm of Lee & Walker, the most ere Sensive Music Publishers in the United States, No. 723 Chee

nut-st., Philadelphia: has been so greatly benefited by your Hoofland's Gen Bitters that I concluded to try it myself. I find it to be an ine-valuable tonic, and unhesitatingly recommend it to all who are suffering from dyspepsia. I have had that disease in its most obstinate form—datulence—for many years, and your Bitters has given me case when everything else had failed. Your JULIUS LEE.

HON, JACOB BROOM: HON. JACOB BROOM: HON. JACOB BROOM:

HON. JACOB BROOM: PHILADELPHIA, Oct. 7, 1969 GENTLEMEN: In reply to your inquiry as to the effect pro-naced by the use of "Hoofiland's German Bitters" in my duced by the use of "Hoodland's German Bitter" in my family, I have no hesitation whatever in saying that it has been highly beneficial. In one instance, a case of dyspepsis, of about thirteen years' standing, and which had become very districting, the use of one bottle gave decided relief, the second effecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return, for the last cure, in my individual use of it. I find it to be an une equaled tonic, and sincerely recommend its use to the sufference.

Truly yours,

The following well-known reverend gentlemen have acknown ledged in writing the great benefits they have received from the use of these Bitters. Such testimony must certainly opevince the most skeptical:
